

About Me

I am reviewed as a remarkable student, constantly taking a stab at difficult tasks. My confidence and maturity are applauded by fellow peers and faculty. I am regarded as a leader and role model, which is evident through my countless accomplishments; notwithstanding that, I can assume responsibility and function well with a group.

Employability skills

I have developed and honed many skills such as teamwork, leadership, time management, communication, ability to work under pressure, decision making, and adaptability and significantly more to be the best that I can be. These were all due to the many countless feats of my time at school and outside of school.

Teamwork: Being part of the sports excellence program for 3 years (where I work with other sports leaders and support children with sports and activities) allowed me to work with a wide variety of different people of different ages.

Leadership: As a Senior Prefect I have the obligation of a leader particularly when you consider the fact I am also Head boy for the school. This has taught me how to help others and listen to problems very carefully.

Decision Making: Leading groups in software projects has shown me the importance of making the right decision at crucial moments as last minute changes or unexpected scenarios may occur.

Adaptability: Taking part in the cultural citizen bronze award program has placed me in many situations causing me to be flexible and change with the environment around me to improve any situation.

Work Experience

Web Designer, Make a difference at Sandies, Romford

April 2018 - June 2018

- Planned, designed and produced a simple minimalist website showcasing information about the charity, what they do, where they are located and how to donate.
- Updating social media pages with new relevant information.

Admin Assistant, Leys Children Centre, Dagenham

April 2018

- Maintained, updated and logged parents and children information on the company database and Microsoft excel.
- Using Excel and formulas to calculate monthly costs for the company.

Interests

Sports: I believe a healthy body is key to a focused mind and a good spirit. I have earned numerous medals from the borough athletics. I've played on many different teams and gained the necessary communication skills and increased my self-confidence to function well with others

Computing: I love working with computers and using distinctive applications that are on it. I am quite skilled with Microsoft Excel and know how to use the many functions on it. In addition, I know how to utilize some programming languages such as Python, C# and Java to code programs from a calculator to simple games.

Design: I enjoy planning, sketching and developing prototypes. I have also created some digital art creating a variety of portraits and fan art.

Problem Solving: I attempt diverse puzzles whether it's a game on my phone, on my computer or in the newspaper. I believe puzzles help with logical abilities.

Games: Games that require a great deal of reasoning such as chess or complicated video games are extremely engaging to me as I get to strategize whilst taking into account many factors.

Other achievements/roles include;

Student of the year, Hardest Worker Award, Parliament Week of the year 2019, Values Award 2021 Reflectiveness Award, Brilliant Club Scholars Program, and School Council.
